Amendments To The Claims:

The text of all pending claims (including withdrawn claims) is set forth below. Cancelled and not entered claims are indicated with claim number and status only. The claims as listed below show added text with underlining and deleted text with strikethrough. When strikethrough cannot easily be perceived, or when five or fewer characters are deleted, [[double brackets]] are used to show the deletion. The status of each claim is indicated with one of (original), (currently amended), (canceled), (withdrawn), (new), (previously presented), or (not entered).

Please CANCEL claims 33-65 and add NEW claims 66-94 without prejudice or disclaimer in accordance with the following:

Listing of Claims:

1-65 cancelled

66. (new) A method for delivering a weather-related advertisement to an individual, the method comprising:
- a. Building a weather-related advertisement according to a scenario determined at least partially according to a prediction of the weather;
 - b. selecting the weather-related advertisement according to weather information about expected weather conditions, said expected weather conditions being related to a geographically confined area and a defined period of time and wherein said weather information is determined according to location-based nowcasting, and wherein said weather-related advertisement is selected according to at least one rule by a rule
